

**Amendments to the Specification:**

*Please amend the paragraph beginning on page 18, at line 2 as shown below:*

AI Referring to Figure 4a, place a search box 50 on each corner of a 3-D image of a large square component 52 such as a BGA or oscillator. 60-75 percent of box length/height should contain the part; that is, the box 50 should have more part than background in it.
